Hi, I'm Dr. Jamé Heskett

HELPING YOUR SKIN AND BODY REMAIN VITAL AND HEALTHY

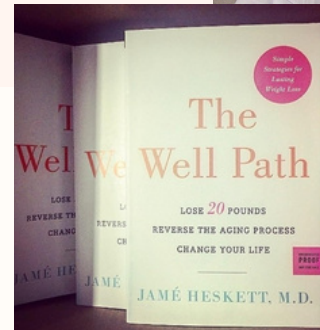

Welcome to the Well Path, my medical aesthetics & wellness practice that I started 23 years ago on the UES in New York City. I have since added a second location in Katonah, NY. Since the beginning I have always set out to find the best solution for my clients concerns using the most advanced technologies and a mindset that the outcome should be natural, sustainable, and affordable. Healthy, beautiful skin is easily achieved with minimal downtime and upkeep. It is important to me to meet with all of my clients personally and get to know them so that I can develop a customized plan over the course of time that is efficient and sensible with maximum impact. Every client is a VIP to me, and I am committed to always providing care that is at the highest level both personally and professionally. I look forward to meeting you.

Client Testimonial

One of the greatest lessons I learned from Dr. Jamé is the importance of balance in every part of one's being; physical, emotional, mental & spiritual. I now clearly see this and recognize its significance. How did I ever think that I could be a healthy human being without balance in every aspect of my life? I could go on forever about Dr. Jamé, but for my final words all I can say is that SHE CARES.

Carboxy Therapy

- A revolutionary yet time tested therapy
- Restores conditions related to decreasing/damaged or poor circulation
- Quick, easy, economical, long lasting with no downtime
- Post liposuction scarring/irregularity, stretch-marks, loose crepey skin, cellulite, body contouring, hair loss, dark circles, facial rejuvenation

Dr. Heskett has been a pioneer in carboxy therapy for over 21 years, treating thousands of clients who want to turn back the clock or repair the body powerfully and naturally

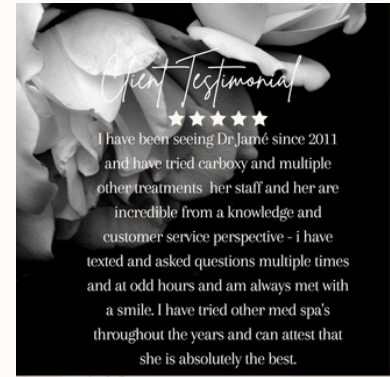

"Absolutely the best"

I have been seeing Dr. Jamé since 2011 and have tried carboxy and multiple other treatments. Her staff and her are incredible from a knowledge and customer service perspective - I have texted and asked questions multiple times and at odd hours and am always met with a smile. I have tried other med spa's throughout the years and can attest that she is absolutely the best.

"I am happy I found Wellpath"

I've been coming to Dr. Jamé Heskett since 2014. Dr. Jamé's bedside manner during my first consultation left me feeling encouraged and armed with a realistic expectation of what could be achieved with her recommended treatments. I agreed to start Carboxytherapy on those problem areas that same week. Since that time I've gone through a few rounds and I must say that there has been a remarkable improvement to the visibility of those marks, tightness of my skin and scar tissue. The bottom line is that Dr. Jamé cares about her patients' concerns and always aims to achieve optimal results in the safest way possible. With the oversaturation of clinics in NYC simply interested in taking your money and nothing else - I'm happy I found Wellpath!

"It's a life changer"

I came for carboxytherapy treatment for stretch marks! It's a life changer!!! The best treatment out there right now to treat stretch marks!! So upsetting, that not many people know about it.. This procedure has no downtime, very quick (5-10 min), results visible after first procedure, and you need 7-10 procedures in total about a week apart! I personally did 7 procedures already and I see a huge improvement, probably 70%! Plus the doctor Jame is the best and so caring!! I cannot be more happier!

Frequently Asked Questions

What will I look like right after my appointment

This will vary depending on the treatment. My goal is to minimize any downtime so that you can go about your regular life asap. Most of the time you can return to normal activities immediately. We will discuss the specifics in your consultation.

Do you have a referral program?

YES! Most of our business comes from the generous referral of our existing clientele. If you refer someone who becomes a client, you will receive 20% off your next treatment.

What is a WP membership

Continuity and consistency of care can make a skin or body regimen more efficient and economical. So after a series of treatments I will formulate a personalized yearly “maintenance” plan for you. The plan will include all of your services for a whole year. You will be given a discounted rate for the block of services and it will be broken down into 12 monthly payments. You will also receive 20% off any additional treatments you do over the course of the year. Clients love this for budgeting and peace of mind.
